Carmen,

On behalf of CBS, WSP has prepared the attached letter describing the conceptual sampling approach to site sampling and cleanup of the former Westinghouse Equipment Repair facility in Rancho Dominguez, California. Per Leo Brausch's email below, please let us know a date and time that you might be available to discuss the project.

Thank you,
Dave

Subject: PCB Notification and Cleanup Plan -- Former Westinghouse Facility, Rancho Dominguez, California

Carmen,

Please let me know your availability for a conference call to discuss the PCB notification and cleanup plan for the former Westinghouse facility in Rancho Dominguez, California. The best time for us over the next few weeks would be Friday, October 11, 2013 or, as an alternative, Wednesday, October 9, 2013. On behalf of CBS, WSP will be sending you an outline of the proposed approach next week.

I will be out next week (week of September 30) but will be checking email and can be reached (if the matter is urgent) by cell phone.

I look forward to hearing from you. Thanks.
